

## Room Profile

# Mobile Cart

---

Mobile Carts, like this one from Heckler Design, make it easy to display the latest video conferencing equipment, and keep it off the table. Outfit your conference rooms and huddle rooms with a cart designed for compatibility with modern components. Phoenix Audio and Heckler have even partnered together and created a solution specifically designed to support the Condor

In the following rendering, we created a medium conference room that utilizes the **MT600 Condor Microphone Array** mounted to a Heckler Design Cart.

# Mobile Cart Design

## MT600 Condor Microphone Array

- Condor
- Soundbar
- Displays
- Camera

\*Optical out from Condor goes into optical in on Soundbar
